

Add U-OV Dal Vrij to your payment card or OV-pas

User guide

Want to add U-OV Dal Vrij to your (digital) payment card?

First, make one trip with that card. You can then link your payment card using the details from that trip.

Please note: your digital card and physical card belong to the same bank account, but they are two separate cards. Decide in advance which card you want to add U-OV Dal Vrij to.

Want to link an OV-pas?

Then you don't need to travel first. Use the card number and serial number on your OV-pas to link it.

Please note: during off-peak hours and at weekends, you travel as much as you like at no extra cost. At other times, you pay with the credit on your OV-pas. So always make sure you have enough credit.

Step 1

Go to mijn.u-ov.nl and click 'Apply for an account'.

Please note: do you already have a U-OV account with your payment card or OV-pas? Then log in at mijn.u-ov.nl and go to **step 8**.

We wish you a pleasant journey on our buses and trams!

Tips

Preferably choose your physical payment card

Your bank regularly replaces the payment card on your phone or smartwatch. You won't notice this yourself, but your travel product will then stop working. Want to be sure you always travel with your subscription? Then add it to your physical payment card.

Would you still rather travel with your mobile card?

Then check the OVpay app regularly.
